**I was a
Fashion Buyer**

**300~400sheets
per Month
per 1 hotel**

Supplier -----> Customer -----> Waste

The diagram illustrates a linear supply chain flow from Supplier to Customer to Waste, represented by dashed arrows. Two large, light gray squares are positioned behind the flow. The top square contains a red curved arrow pointing from the Customer back to the Supplier. The bottom square contains a red curved arrow pointing from the Waste back to the Customer. A dashed arrow points from the Supplier down to the word 'Waste'.

Waste

**We create
Good Product**

A person wearing a beige trench coat is holding a white plastic bag. The bag has green text that reads "GO GREEN for Love" and "GO GREEN for Life". The person is standing in a field of yellow flowers and green grass, with a stone wall in the foreground. The background is slightly blurred, showing more greenery and a hint of a building with a red roof.

**We create
Good Partnership**

From Us to the New Generation
